### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The closest prior art of record, Lacout (US Pub # 2002/0030064) teaches a system having a container of hair dye and a testing tube to take fluid from the container to test on the hair of the user. Lacout does not teach having a fluidly discrete test tube in the system. The next closest prior art of record, Zhang et al. (US Pat # 6,343,717) teaches a sealed test tube to be used to convey product that is sealed within, however does not teach being used in a system with a container of product to represent a testing sample of product contained within a container. None of the cited prior art of record teach or suggest providing both a container and a discrete product holding tube where the tube contains a product that represents the same product as the contents of the container but is in a discrete container.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
